Tefora Software Solution

Tefora helps companies turn ideas into working digital products faster and smarter. We design and build AI agents, automated workflows, and high-performing web and mobile apps that improve customer experience and boost results. Our team blends strategy, design, and engineering so you get reliable, scalable solutions that deliver real business value.

Services.

AI Agent Creation

Custom AI agents and Chatbots with voice and text interaction. They handle queries, guide users, automate tasks, support learning, and deliver personalized assistance boosting satisfaction, speed, and conversions.

IT Consulting

Practical audits and roadmaps to modernize systems, close gaps, and align technology with business goals.

n8n Workflow Automation

n8n workflows that automate sales, marketing, finance, and operations to cut manual work, reduce errors, and shorten lead-to-cash cycles.

Startup Solutions

Lean roadmaps and sprint-driven execution to move from MVP to product-market fit quickly and cost-effectively.

Web & App Development

Fast, accessible websites and mobile apps built for conversions, SEO, performance, and scalable growth.

Growth Acceleration

Architecture fixes, performance tuning, and platform integrations that streamline workflows and support sustainable scaling.

Projects.

Results & Impact

- 95+ projects delivered, 72+ clients partnered
- Faster launches with MVP-first approach and continuous iteration
- Higher conversion and better customer experience
- Systems designed for performance, security, and scale

USLOT - Learning Platform (Web + Mobile)
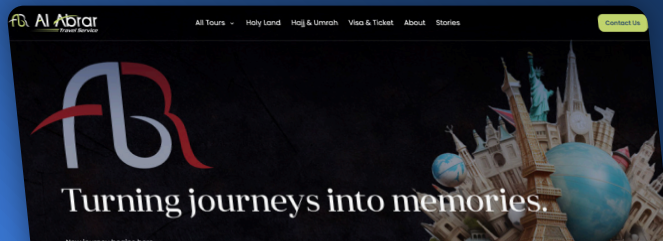

Our Work Process.

01
Discovery & Planning
Align on goals, users, and success metrics.

02
UX Flows & Prototypes
Map journeys and validate with quick prototypes.

03
Design & Content
Modern, accessible UI with clear, persuasive messaging.

04
Build & Integrate
Reliable, scalable development with required integrations.

05
Test & Improve
Functional, performance, and usability checks.

06
Launch & Support
Smooth rollout, training, docs, and ongoing optimization.

Engagement Models

- Fixed Scope: Clear requirements and timelines
- Time & Material: Flexible scope with iterative delivery
- Dedicated Team: Designers, developers, QA, and PM
- MVP Sprints: Fast prototypes to validate ideas
- Consulting & Roadmaps: Architecture, modernization, and AI adoption
- Maintenance & Support: SLAs, updates, and performance tuning

Our Clients.

"Tefora has been our trusted technology partner for over two years. Their team is skilled and reliable, making our training programs more effective. We love to work with Tefora for a long time to come."

Muhammed Rizwan
Director, SkillMount

"Tefora exceeded our expectations by developing a fast, reliable, and user-friendly education app for Eduslot. Its intuitive design has improved the experience for students, parents, and educators alike."

Ashraf Keloth
Team Eduslot
